

Capitalisation through coordination

Experimental call open until 5 July

.....

Our current call is an experiment to increase the impact of Interreg project outputs and results in coordination with other funds.

To support lead applicants in preparing successful project proposals, we are offering individual consultations that must be held before 28 June.

Application package

Find out how to write a good application

.....

If you are planning to submit a project proposal to our experimental call, you can download the full application package from our website.

It includes the application manual and its annexes, as well as other complementary tools for partner search etc.

[Download the package](#)

Matchmaking tool

Find fitting partners beyond the Interreg community

.....

Are you searching for relevant partners from directly-managed programmes to join your project idea and take your results forward?

The European Commission DG Research and Innovation provided us with a brand new matchmaking tool for finding partners from research projects that thematically fit.

Find research partners with this tool

What to capitalise on

Find relevant Interreg outputs and results

.....

We have launched our Interreg CENTRAL EUROPE output library and dozens of outputs are already available.

It will be a good starting point if you are still looking for Interreg solutions that fit your project idea.

[Browse through the library](#)

Who to capitalise with

Find Interreg CENTRAL EUROPE projects to work with

In our experimental call, project proposals need to further develop and improve existing outputs and results by making use of the experiences of more than one project.

Are you still looking for projects that you can join forces with? Our thematic pages give more information on our funded projects in each of the topics we focus on.

PRIORITY

INNOVATION

We make CENTRAL EUROPE more innovative and competitive by addressing socio-economic challenges and needs related to smart growth.

PRIORITY

LOW CARBON

We reduce the carbon footprint in CENTRAL EUROPE by increasing the use of renewable energies and improving energy efficiency.

PRIORITY

NATURE & CULTURE

We value the environment and culture in CENTRAL EUROPE by protecting and sustainably using natural and cultural heritage and resources.

PRIORITY

TRANSPORT

We better connect CENTRAL EUROPE by reducing gaps between peripheral, less accessible regions and well-connected centres.

Where to meet potential partners

Team up with researchers in this EC Info Day

.....

The upcoming Horizon 2020 Info Day in Brussels on 7 May will offer potential lead applicants an opportunity to present initial project ideas to fitting partners from the FP7 and Horizon 2020 research programmes.

Shaping the future of cooperation

Tender open for support on defining the new programme

.....

We have launched a tender procedure for support on analysing the territorial challenges, needs and transnational cooperation potentials for Interreg CENTRAL EUROPE in 2021-2027.

If you are interested in helping us to shape the strategy of our future cooperation programme, you are invited to submit an offer until 27 May.
